

# OCTOPODA GEN2 ROV TOOLING SKID

INTERCHANGEABLE ROV INTERFACE  
DRAWER AND FIXED FRONT  
LOW WEIGHT

**The Octopoda GEN2 ROV Tooling skid is designed to reduce cost in subsea operations related to installation, maintenance and other activities related to underwater operations.**

The Octopoda GEN2 ROV Skid is equipped with interchangeable interface frame, there are 3 different setups where we have chosen the most standard ROV types.

You can easily choose between drawer or fixed front. For the fixed front solutions there are possibilities to customize, or you can use it as it is, see page 2 for fixed front layout.

The skid can be equipped with all kinds of tooling, such as DWP, Torque Tool, Dredger's, pressure test tooling, cutting tool and others.

## Typical Operations

- Tooling Operations
- Fluid Operations
- Pressure Testing

## Features

- Low weight
- Interchangeable ROV interface
- Service & User Friendly

# SPECIFICATIONS

Octopoda GEN2 ROV Tooling Skid

## General Technical Specification

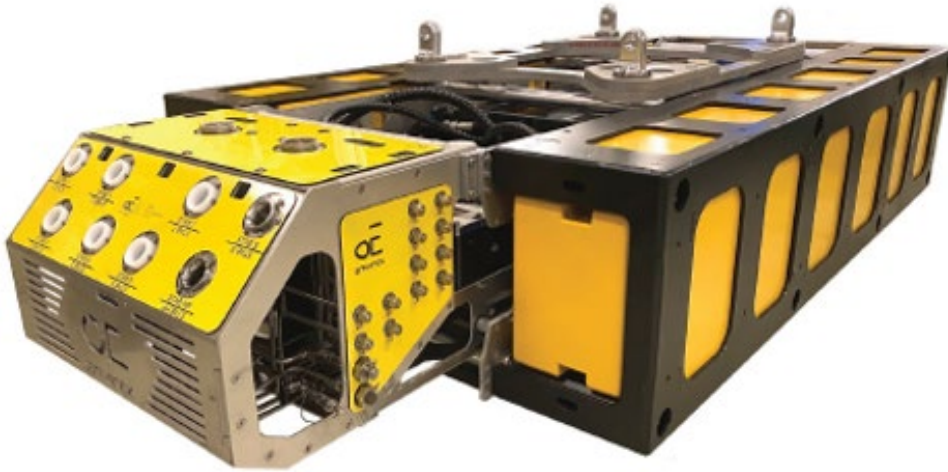

Type	Octopoda GEN2 ROV Tooling Skid
Part number	SKID-OCT
Weight	465 kg
Dimensions (L x W x H) [mm]	2400 x 1500 x 850

## Hydraulic Specifications

Hyd Cylinder for drawer, max pressure:	100 Bar
--	---------

## Hydraulic Connections

Extend	Jic 4
Retract	Jic 4

Skid with fixed front
