

BELLY BASKET KYSTDESIGN SUPPORTER

SUPPORTER ROV
SKID DRAWER
CONFIGURABLE

Description

The Supporter Belly Basket is designed to fit directly into the Kystdesign Supporter ROV. It is also suitable for most Constructor ROVs. The Belly Basket is operated like a drawer, and has a storage room to keep tooling etc. A Fixed Front is mounted to the drawer for further possibilities.

The Fixed Front is made to be fitted with a Ø55 6-port Valve Stab Receptacle and a Ø35 4-port Hot Stab Receptacle. Other options are on the fixed front available upon request.
