

# ROV CAMERA EXTENSION STICK

0-90 DEGREES  
1 METER EXTENSION  
SUBSEA CAMERA

## Description

The Camera Stick is a robust 1-metre extension arm designed to improve ROV camera access in confined and hard-to-reach areas. It allows the camera to be positioned away from the ROV body, providing improved viewing angles during inspection and survey operations.

Equipped with a fishtail handle for ROV manipulation, the Camera Stick enables smooth and precise positioning. The adjustable camera mount allows angular positioning from 0° to 90°, making it suitable for a wide range of inspection tasks. The design is compatible with multiple camera types, offering flexibility across different ROV configurations.

## Typical Operations

- ▣ ROV Inspection Support
- ▣ Confined Space Inspection
- ▣ Structural Inspection
- ▣ Close range Visual Surveys
- ▣ Pipeline and Weld Inspection

## Features

- ▣ 1m Extension
- ▣ Adjustable Camer Position (0-90°)
- ▣ Fishtail Handle
- ▣ Slim Design
- ▣ Hollow Extension Arm for Cable Routing.

# SPECIFICATIONS

## ROV CAMERA EXTENSION STICK

### General Technical Specifications

Type	ROV Camera Extension Stick
Part Number	
Dimensions L x W x H	1100 mm x 40 mm x 100 mm
Weight in air with Seaspy Camera	5 kg
Depth Rating	Camera Restricted

### Mechanical Specifications

Extension Length	1000 mm
Camera Adjustment	0-90° Tilt
Handle	Fishtail
Suitable Camera	Camera Bracket can be suited to fit any camera.
