

Luggage Carrier 1200x500 Modular w/walls

ROV Luggage Carrier
Multiple Interface Option
Optional Walls

Description

The Luggage Carrier 1200x500 Modular is a lightweight and versatile subsea transport platform designed for mounting and transporting tools, equipment and payloads on ROV systems. The aluminium profile construction provides a strong and flexible platform that can easily be configured for different subsea applications.

The carrier is designed with a high degree of modularity, allowing attachment points, supports and walls to be repositioned, removed or added as required. The ROV interface is mounted directly to the carrier as a separate module and can easily be replaced to accommodate different ROV types, making the same carrier suitable for a wide range of ROV systems and operations.

Features

- Modular construction
- Removable side walls
- Replaceable ROV interface
- Lightweight and robust

SPECIFICATIONS

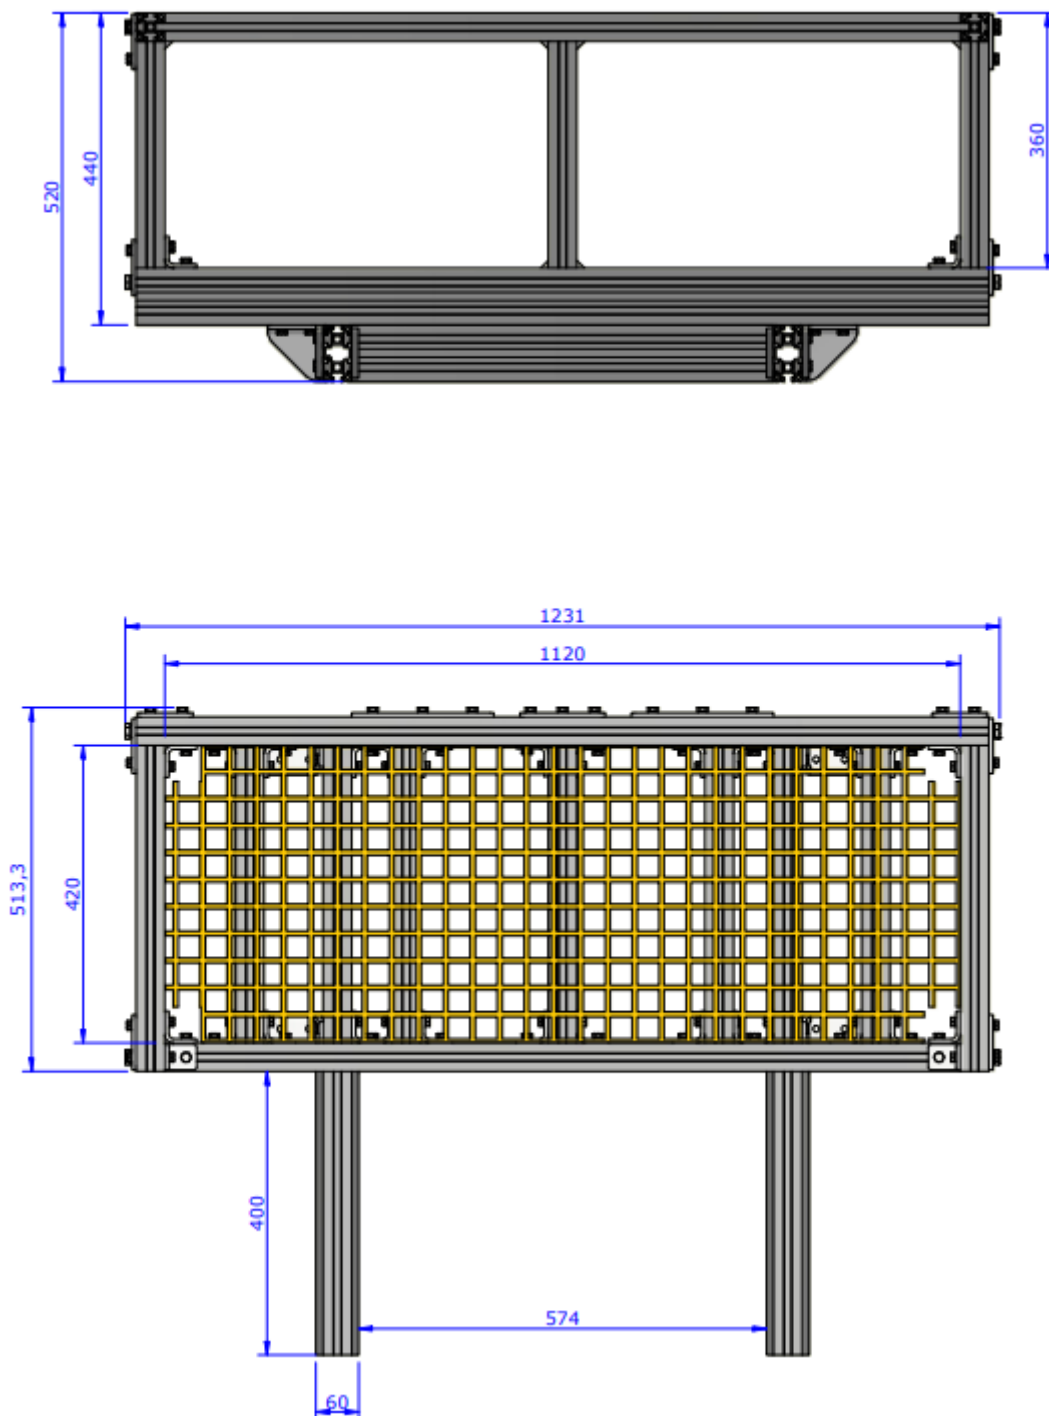

Modular Luggage Carrier 1200x500

Document No.: EVT-14373

Revision: 0

General Technical Specifications

Type	Luggage Carrier
Part Number	MLC-01
Dimensions without interface L x W x H	1231 mm x 514 mm x 440 mm
Dimensions with Schilling HD interface L x W x H	1231 mm x 914 mm x 520 mm
Weight in air / submerged without interface	31 kg / 19 kg
Weight in air / submerged with interface	44 kg / 26 kg
Depth Rating	3000 MSW
